Environmental and  
Energy Study Institute

## We Inform You

### Energy and Environmental Information

EESI is a bipartisan nonprofit educating policymakers on sustainable practices with Congressional briefings and other advocacy efforts.

EESI is a go-to resource for reliable, credible information on renewable energy, energy efficiency, and clean transportation issues.

We release 2 weekly newsletters, *Climate Change News* and *Sustainable Bioenergy, Farms and Forests*, as well as fact sheets and articles.

**Join our free mailing lists** and watch our briefing livecasts.

## We Provide Help

### On-Bill Financing Assistance

EESI's On-Bill Financing Project is an ongoing initiative aimed to help families reduce energy use, cut energy bills, and improve home comfort.

EESI provides assistance, *at no cost*, to co-ops and public utilities looking to implement on-bill financing projects.

**How it works:** the utility or partner organization pays for home energy upgrades, and is repaid through a monthly charge on the recipient family's utility bill.
